

The poultry group's BBQ took place in the beautiful setting of John and Lorna McGlyn's home set on the side of the Bloreng Mountain overlooking the Usk Valley. With Abergavenny in the foreground and the Sugarloaf and Holy Mountain in the distance, an idyllic setting for this annual event.

The hard work and organisation put in by the social committee certainly paid off on the day with 70+ adults and youngsters having a fabulous time and enjoying the festive atmosphere.

The **Chicken Free Zone** that was the bbq area allowed the “**Three Amigos**” **Rick, Mike and Wally** to don aprons and cook the veggie and bbq meats to perfection; (no upset tums were reported !!) **Rick** also took the time to school **Wally** in a master class in how to retrieve burgers and sausages that had got **too** close to the charcoal embers, courtesy of too much of the amber nectar!!

The food for the bbq proved to be delicious; many people came up for 2nds and even 3rds! The main fare was complemented by the salads, cakes and puddings brought in by the members for all to sample. Exquisite pastries and fabulously decorated cakes and buns were provided. Our ‘**young bantams**’ also got in on the act and produced highly decorated cakes and cup cakes. They all proved to be very ‘moorish’ which was evident by the state of the tables following the proverbial biblical locust's demolition of the sweets !!

The youngsters also had a great time making full use of the resident trampoline, and not forgetting the garden and grounds to run wild in and away from mum and dad!!

Background music was provided by Emlyn. This was excellent and many people commented on the variety of music and how good it was. It also included the Welsh National Anthem; “*surprising how many people actually sang along*” ... *Val Doonican eat your heart out!*

Last but not least, seeing friends and family relaxing and enjoying themselves amongst like minded people on what turned out to be a fabulous day in a beautiful part of Wales.

Poultry RocksOK!
